SAS Engine

Digital Dynamics Software Inc.

EASILY ADD THE DE-FACTO CASINO COMMUNICATIONS STANDARD TO YOUR GAMING EQUIPMENT

SAS has steadily evolved from a protocol designed for electronic game machine metering and logging to include bonusing, ticketing, progressives and cashless wagering. Interoperate with dozens of gaming machine and system vendors quickly around the world with proven technology.

The SAS Engine supports:

- Accounting and Metering
- Advanced Accounting
- Multi-Game & Multi-Denomination
- Ticketing (Secure Enhanced & System)
- Real-Time Events
- Bonusing (Legacy & AFT)
- Progressives (SAS & Non-SAS Progressives)
- Cashless (EFT & AFT)
- Tournament
- Jackpot - Handpay

Available on Windows, Linux, or a small low-cost embedded device.

Compatible with any system!
